

CPoint

```
graph BT; CButton --> CPoint; CRectangle --> CPoint;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'CPoint'. Below it, a horizontal line connects two boxes: 'CButton' on the left and 'CRectangle' on the right. A vertical line with an upward-pointing arrow connects the center of this horizontal line to the bottom of the 'CPoint' box, indicating that both 'CButton' and 'CRectangle' inherit from 'CPoint'.
